React Native + Expo Setup (Windows) - Student Prerequisites

1. Install Node.js (LTS Version)
Download: https://nodejs.org
Verify:
node -v
npm -v

2. Install Git for Windows
Download: https://git-scm.com/download/win
Verify:
git --version

3. Create an Expo Account
Sign up at: https://expo.dev/signup

4. Install Visual Studio Code
Recommended Extensions:
• Expo Tools
• ES7 React/Redux/React-Native Snippets
• Prettier
• GitLens

5. Install Expo CLI (Global Install)
npm install -g expo-cli

6. Install EAS CLI (Global Install)
npm install -g eas-cli

7. Install Expo Go on Mobile (Optional)
Used for previewing simple apps.

8. Verify All Commands
node -v
npm -v
git --version
expo --version
eas --version

Note:
Android Studio and JDK are not required for this workflow, as requested.
